

Ref: CPSIA Standards

February 6, 2008

Dear Friends,

Please find attached documentation pertaining to the dyes we use in our yarns and fleece. We hope these will be helpful to you.

We have been assured by our Russian partners that the paint on our knitting needles is lead free. This has been a concern of ours over the last ten years and thus the paints we use are of German origin where the EU has very tight controls on lead content.

Please feel free to contact us should you have any additional questions pertaining to our product safety.

Sincerely,

Peter Hagerty
